

Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.

### When the Eyes Itch, Burn, Smart or Ache,

There is something needed besides a rub. You can't remove eye defects with a rub of the finger. Neither can you relieve the strain by hoping your eyes will become stronger. Weak eyes, when we need glasses, always go from bad to worse.

### Escaped Convict Shot to Pieces.

Shot almost to death in a desperate battle with deputy sheriffs in Scott county, Tennessee, John Shotwell, 32 years old, of Corbin, was finally captured Monday morning near the Kentucky line and arrived at Frankfort penitentiary Wednesday barely alive. There are five bullet holes in him, two in his head, two in his right arm and one in his leg. Dr. Joseph Barr, the prison physician, performed a trephining operation on him, removing a part of his skull and a blood clot from his brain. He is not expected to recover, although his determination and will may pull him through.

### Fish in Inclosed Waters.

Most people not without education and a general knowledge of natural history are mystified by the presence of fish in inclosed waters. For many years there was open mouthed wonder over the perch, bream and crayfish found in the newly cut dams near the Macquarie river, in New South Wales. In some cases the water had scarcely settled after the rain had filled the dam than the fish were observed, and the Australian farmers started a theory of spontaneous production. This obtained and gained wide credence until a Sydney professor chanced to pick up a wild duck and found its breast feathers and webbed feet well dotted with fertile and almost hatched fish ova, on which the "spontaneous production" theory was promptly withdrawn.—St. Louis Globe-Democrat.

### Old Time Mountebanks.

Coryat, describing the mountebanks he saw at Venice in the seventeenth century, who were adepts in the art of advertising, speaks of the "oration to the audience of half an hour long, wherein he doth most hyperbolically extol the virtues of his drugs and confections, though many of them are very counterfeit and false." And the author of a "Tour Through England" (1723) writes of a mountebank he saw in Winchester: "He cures all diseases and sells his packets for sixpence apiece. \* \* \* It is a prodigy how so wise a people as the English are gulled by such pickpockets."

### Doglike.

As usual, he complained that the biscuits were heavy, the coffee weak, the bacon burned, and so forth. His wife in the end looked up calmly from her letters.

"Don't growl so over your breakfast," she said, smiling. "Nobody is going to take it away from you."—Cincinnati Enquirer.

### Wrong Tip.

"I have come all the way out here," said the tenderfoot, "to see your beautiful sunset." "Somebody's been stringin' you, stranger," replied Arizona Al. "It ain't mine."—Chicago Record-Herald.

### Hard Climbing.

Weary Walker—De world's all wrong. Tired Tatters—Wot's eatin' youse now? Weary Walker—Ef I'd a had de makin' uv it I'd made all de roads runnin' downhill.—Chicago News.

### A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, flatulency, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

### Cost of Canal.

Full details of the work done on the Panama canal during the fiscal year 1907 with a showing of what has been accomplished since the project has been in American hands, are disclosed in the annual report of the Isthmian Canal Commission. Aside from the \$50,000,000 paid to the French Company and to Panama, an aggregate of \$48,285,110 has been expended on the project adopted by Congress, and which, it is estimated by the Board of Consulting Engineers, should ultimately cost \$139,705,200.
